X.Temp

VN883500

Temperature probe for thermostats and programmable thermostats with a dedicated input.

Technical specifications

Functional characteristics	
Sensor type	NTC sensor (100 k Ω at 25 °C) for smart thermostats
Operating conditions	
Operating temperature range	-40 ÷ 60 °C
Mechanical features	
Protection degree	IP66
Dimensions	
Cable length	Cable length: 2 meters (extendable up to 40 meters with two-core cable, min cross-section 1 mm^2)

Reference standards

Compliance with Community Directive:

• **2011/65/UE e 2015/863/UE (ROHS)**

is declared by reference to the following Standard:

• **EN IEC 63000**

Vemer S.p.A. declines all responsibility for the use of the products for purposes other than those for which they are intended, as indicated in the technical documentation. Vemer S.p.A. reserves the right to make, without prior notice, such changes as may, in its sole discretion, improve the technical and functional characteristics of the products and the related production logic. The technical characteristics and images of the products indicated are given for information only and are not binding in any way, since they may be modified without prior notice.
