Luxy

VE766200

1-module 230 Vac flush-mounted twilight path lamp, automatically activating in low light to illuminate the path in poor visibility conditions. Thanks to the front-mounted regulator, it is possible to customise the light intensity and set the brightness level below which the lamp automatically switches on.

General features

- For installation on 1-module flush-mounted boxes with 45 mm high
- Terminal block on the back of the device for connecting load and power supply
- Always on or always off function
- Supplied supports compatible with cover frames of the main switch and socket systems
