Mithos Bianco

VE328100

Smart thermostats / Climate Control

Battery-operated wall-mounted electronic smart thermostat with weekly programming. The keypad is hidden under the cover, giving the device a minimal and elegant design. Device designed for room temperature regulation in heating mode (winter) and cooling mode (summer).

General features

- Plastic base for wall-mounted installation or for covering a 3-module flush-mounted box
- Display showing measured temperature and set programming
- Hidden keypad under the flap
- Terminal block on the back of the device for connecting load and external contact/remote temperature probe
- Automatic weekly programming with 3 temperature levels (T1, T2, T3)
- Temperature control: on/off (with adjustable differential) or proportional
- Anti-freeze temperature to prevent system freezing when the device is in OFF state
- Timing function: Maintains the current operating mode (automatic, manual, or off) for a set period of time, after which the device automatically switches to the specified mode.
- Delay function (configurable for each hour): adjusts the temperature for the first 15, 30, or 45 minutes of the current hour according to the temperature level set for the previous hour
- Automatic changeover between standard time and daylight saving time
- Keypad lock function with password to prevent modifications by unauthorised people
- Dual digital input for connecting an external contact to switch off the device and an X.temp temperature probe code VN883500
- Classification according to point 6 of European Commission Communication 2014/C 207/02: class IV

Technical specifications

Power supply	
Power supply	1 battery (AA) 1.5 V Alkalina NOT rechargeable
Battery autonomy	24 months
Power reserve	1 minute
Temperature settings	
Settable temperatures	3 + antifreeze + manual
Temperature setting range Manual	2 ÷ 35 °C
Temperature setting range Automatic	2 ÷ 35 °C
Temperature setting range Antifreeze (Off)	OFF, 1 ÷ 10 °C
Parameter settings	
Type of adjustment	ON-OFF or proportional
