Sens IR DUO Argento

VE790900

2-module 230 Vac flush-mounted twilight motion detector for movement detection within its range. When connected to one or more lighting devices, it automatically activates the lighting upon motion detection, ensuring timely response to visibility needs. Thanks to the front-mounted regulator, it is possible to customise the brightness level below which the device activates the load in case of motion detection, as well as set the light-on time, optimising energy efficiency and installation ease.

General features

- For installation on 2-module flush-mounted boxes with 45 mm high
- Test mode of the detector to check its correct functioning
- Timing controller: sets how long the load is to remain switched on
- Brightness controller: sets the brightness level below which the load is to be activated in the event of motion detection
- Adapters included to adapt the instrument to the cover frames of the major residential series

Technical specifications

Power supply	
Power supply	230 Vac (-10% ÷ +10%)
Frequency	50 / 60 Hz
Absorption	5 (1) VA (W)
Settings	
Tripping time	30 seconds ÷ 15 minutes
Intervention Brightness Range	5 ÷ 100 lux
Functional characteristics	
Detection angle	110 °
Sensing range	7 meters
Operating conditions	
Operating temperature range	0 ÷ 35 °C
Relative humidity	20% ÷ 90% non-condensing RH
Storage temperature range	-25 ÷ 70 °C
Connectable loads	
Incandescent lamps	800 W
Fluorescent lamps (neon)	400 VA
Halogen lamps (230 V)	800 W
Low Consumption Lamps (CLF)	100 W
LED lamps	50 W

Sens IR DUO Argento

VE790900

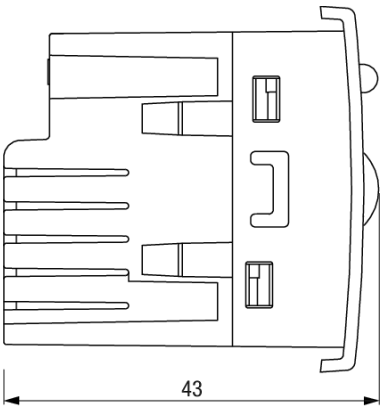

Outputs	
Relay type	Normally open
Relay capacity at 250 Vac	5 A
Terminations	
Maximum cable cross-section	1.5 mm²
Mechanical features	
Protection degree	IP40 (on the front)
Physical features	
Color	Silver Tech
Overall dimensions	
Height (A)	44 mm
Width (B)	43 mm
Depth (C)	43 mm
