# VALV-12NC 12 Vdc

VE172300

**[Model variant]**

Solenoid valves (with aluminium body) for normally closed gas interception. They are constructed in such a way as to guarantee gas detection both for gas detector signals (methane, LPG, carbon monoxide and others) and for mains voltage failure (black out). Manual reset can only take place in the presence of mains voltage and if the gas detector does not give any danger signals.

## General features

- Normally closed manual reset gas solenoid valves that can be combined with a gas detector
- For active safety (triggered by detector command and/or loss of power)
- Threaded connections UNI-ISO 7/1

## Technical specifications

| | |
|---|---|
| **Power supply** | |
| Power supply | 12 Vdc (-15% ÷ +10%) |
| Absorption | 8 VA |
| **Functional characteristics** | |
| Valve type | Normally Closed |
| **Operating conditions** | |
| Operating temperature range | - 10 ÷ 60 °C |
| Maximum inlet pressure | 500 mbar |
| **Mechanical features** | |
| Protection degree | IP65 |
| **Overall dimensions** | |
| Height (A) | 165 mm |
| Width (B) | 70 mm |
| **Dimensions** | |
| Connection | Rp 1/2" |
